ATMOSPHERIC POLLUTION PREVENTION AND CONTROL POLICY

ALEATICA recognizes the importance of controlling atmospheric pollution to ensure a healthy environment and improve the quality of life of the community that interacts with the environment in the areas where it has operations. As a result, ALEATICA assumes the commitment to work on prevention and reduction of atmospheric pollution, including light and sounding pollution generated by its operations.

ALEATICA's guiding principles are:

- a. Comply with the applicable local regulations and the indicators of international sustainability standards and frameworks, reported in the Non-Financial Annual Report of ALEATICA -Spain Law 11/2018, Global Reporting Initiative (GRI), Sustainability Accounting Standards Board (SASB), Global Real Estate Sustainability Benchmark (GRESB) and Task Force on Climate-related Financial Disclosures (TCFD).
- b. Integrate criteria of control, mitigation and prevention of pollutant emissions into the atmosphere in all Business Units in different phases construction, maintenance and operation of ALEATICA.
- c. Assign economic, human and technical resources to prevent and reduce the atmospheric pollution that could be produced by the development of the activities of ALEATICA.

To operate by the above mentioned principles, ALEATICA will over time assume the following commitments:

1. Analyze, evaluate and, where possible, opt for the use of construction, maintenance and operation materials with the lowest generation of atmospheric pollutants implemented in all phases of infrastructure projects.
2. Measure the company's Greenhouse Gas (GHG) emissions through the guidelines of the ALEATICA Carbon Emissions Protocol and aligned with the methodology of the Greenhouse Gas Protocol and ISO 14064:2020.
3. Identify the points of greatest generation of emissions of atmospheric pollutants in the construction, maintenance, and operation processes of ALEATICA with the aim of prioritizing joint reduction efforts in the most critical points.
4. Identify and assess, the risks associated with the atmospheric pollution.
5. Identify relevant ALEATICA interest groups to raise awareness about the importance of having actions for the prevention and reduction of atmospheric emissions.
6. Promote the development of projects and actions to control, prevent, mitigate atmospheric pollution, measuring the positive impact they generate on the environment.
